Section 3: Terms and Conditions

Orders placed against GSA Multiple Award Schedule (MAS) contracts, using the procedures in Federal Acquisition Regulation (FAR) 8.4, are considered to be issued using full and open competition (see FAR 6.102(d)(3)). Ordering activities shall not seek competition outside of GSA Schedules or synopsise the requirement. In addition, ordering activities are not required to make a separate determination of fair and reasonable pricing, except for the price evaluation required by FAR 8.405-2(d) when ordering services requiring a statement of work. By placing an order against a GSA Schedule contract using the procedures in this section, the ordering activity has concluded that the order represents the best value and results in the lowest overall cost alternative to meet the government's needs. Although GSA has already negotiated fair and reasonable pricing, ordering activities may seek additional discounts before placing an order.

While the mandatory small business preference programs in FAR Part 19 do not apply to orders placed against GSA Schedule contracts, such orders may be credited toward an ordering activity's small business goals. Ordering activities may consider socioeconomic status when identifying contractors for consideration of an order (see FAR 8.405-5).

Further information regarding Schedule ordering procedures is available under [Basic Schedule Ordering Guidelines](#).
